

Mere stupid words of mine
Harmony [?] Class [?]
Have been said in every class

A silly time
A [xxx] Moon
A starry night
Eyes so bright
And I'll be true
And I love you.

It's all been said and sung a thousand times before.
Skies are blue
You be true
I love you I adore
My heart is aching. My heart is breaking.
You are mine. You are divine.
No matter near or far.
You can't. You won't!
You can never make love unpopular.

Your little nose is like a rose.

In every kind of love given
You'll have the same silly man.

It's been said in every language.
No matter near or far.
That you can't! You won't!
You can never make love unpopular.
