

What constitutes the principle of progressive society? The prosperity of our national life consists of four factors: 1) work, 2) profit from work, 3) leisure from it

Humanity in its original form above uniform labor. Organized work cannot endure, only by a driving force and the [xxx] is the necessity to live.

So to get people to work we must threaten them with want unless they are willing to work.

If only he had a vulgarity as rich as his intellect, how rich his work would be.

He has all the simplicity of an intellectual, and the vanity of a genius.

He has all the simplicity of a genius and the vanity of an intellectual.

A most obliging and charming man with the simplicity of a genius and the vanity of an intellectual.
